

Why IRC?

Insulated Roofing Contractors installs, services, maintains and repairs a full range of roofing systems: sprayed polyurethane foam, single-ply, and restoration coatings.

Every roofing system we install is carefully selected from only the finest suppliers. We ensure the products we install live up to the quality standard our people uphold every day. We stand by our products and offer 20 year warranties to prove it.

Experience

- We have been in the commercial roofing business since 1974 and cover 7 million square feet/year.
- We have worked on jobs as large as the Louisiana Superdome, WVU Coliseum, and Miami Airport.
- We are the largest spray foam contractor in the US; we serve all 50 states and international customers.

Integrity

- We are a family-owned business that loves people.
- We are dedicated to installing the right system for your building, not just the most profitable.
- We work closely with you to make sure you're happy every step of the way.

Quality

- We never leave a job until the customer is completely satisfied.
- We meet or exceed safety standards on every job, no matter the size.
- We warrant all our work because we trust our process, products and our people.

Unbeatable Customer Service

On top of our experience, integrity, and commitment to quality, we are completely focused on customer service as a company. When you call, a person answers the phone, and they take time to walk you through whatever issue you're having.

When you work with IRC, you'll get a dedicated salesman who focuses on your account and knows your building. If you need something, they come running and don't stop until you're satisfied.

What Our Customers Say

"We own 1.8 million square feet of flat roof, 95% of which is polyurethane foam. IRC is our vendor that does most of our roofing work. We are very pleased with their service, their integrity, and with the product in general."

*Bill Wiseheart,
New Albany Floyd County Schools*

"For the last 4 years we had an aggressive program to replace a lot of our roofs throughout our school district. We currently have $\frac{3}{4}$'s of a million square feet under roof with IRC in New Albany, IN. We're very pleased with their product, and their customer service."

*Steve Hobgood,
Greater Clark County Schools*
